

SAHANA V

SOC ANALYST

 Tamil nadu , Chennai |  <https://sahana-v-portfolio-s46l.vercel.app/> |  +91 7200317690 |  sahanav1255@gmail.com |  [linkedin.com/in/sahana-v1255/](https://www.linkedin.com/in/sahana-v1255/)

SUMMARY

Computer Science graduate with knowledge of cybersecurity principles, network security, and Security Operations Center (SOC) processes. Familiar with threat monitoring, incident analysis, vulnerability assessment, and basic incident handling through coursework, labs, and personal projects. Committed to continuous learning and professional growth in cybersecurity. Additionally experienced in frontend development, building responsive web applications using React, Vite, and modern UI/UX design principles.

EDUCATION

Bharath Institute of Higher Education and Research

2022 – 2026

Bachelor of Technology - Computer Science | CGPA: 9.1/10 | Percentage: 86%

Zion Matriculation Higher Secondary School

2021 – 2022

State Board of School Examination

SKILLS

- Cyber Security: SOC Operations, Threat Monitoring, Incident Response, Log Analysis, SIEM.
- Network Security Tools: Wireshark, Nmap, Network Monitoring and Security Analysis.
- Programming & Systems: Python, Linux, Git, GitHub.
- Professional Skills: Problem Solving, Team Collaboration, SEO.

FEATURED PROJECTS

Frontend Developer – Srishty College ERP/CRM

2024 – 2025

Bharath University

- Developed and maintained responsive user interfaces for ERP/CRM platform serving 10,000+ students & staff using React + Vite.
- Built reusable UI components, improving development efficiency and consistency across modules

Mini Project - URL Threat Evaluation and Risk Scoring System

2025

Cyber Security and Machine Learning Integration

- Developed a URL Security Checker Tool using Python, Flask, and CLI tools (OpenSSL, WHOIS, PowerShell) to perform SSL validation, phishing detection, ASCII/Unicode checks, and port scanning with Python-nmap.
- Collaborated with a teammate on a lightweight ML module for phishing risk scoring and site classification (Safe, Suspicious, Dangerous).

AI-Powered Smart Campus Information Kiosk

2026

- Contributed to the development of a multilingual AI-powered campus information kiosk designed to provide instant access to institutional information using RAG and Large Language Models. Designed and developed responsive frontend interfaces using modern web technologies, ensuring an intuitive user experience for students, parents, faculty, and visitors.
- Collaborated with team members to integrate frontend components with backend services and AI-powered information retrieval systems.

WORK EXPERIENCE

July – Oct 2024

Intern - MoarDigital360 Pvt Ltd

Web Development & Digital Marketing

- Developed and optimized website content to improve user engagement and readability.
- Implemented SEO strategies, enhancing search visibility and driving organic traffic.
- Designed responsive and visually appealing web pages using modern web tools.
- Collaborated with a professional team, gaining hands-on experience in real-world workflows and execution
